Concrete Block Liability Form

This is intended to set forth in writing the agreement between GreatEvents Tents and _____ (Client) regarding the installation of a tent for the contract dates set forth on order # _____.

Client has requested GreatEvents Tents to install a tent without staking or anchoring into the ground and instead to concrete blocks to secure the tent in place. The requested configuration will not meet the manufacture hold-down requirement of 10 pounds-force per square foot of tenting.

GreatEvents Tents has indicated that the proper and safe installation requires ground anchoring. Inadequate anchoring could result in injury to persons, death and/or property damage. Client hereby agrees to indemnify GreatEvents Tents from any claims which may occur if wind or weather cause the tent to collapse or be blown into any person or property.

Further, Client agrees to pay for any property damage to the tent or other property damaged by the tent if it is moved or blown as a result of the weather. Please print and return a signed and dated copy of this agreement to GreatEvents Tents. Our fax number is: 403.640.8787
